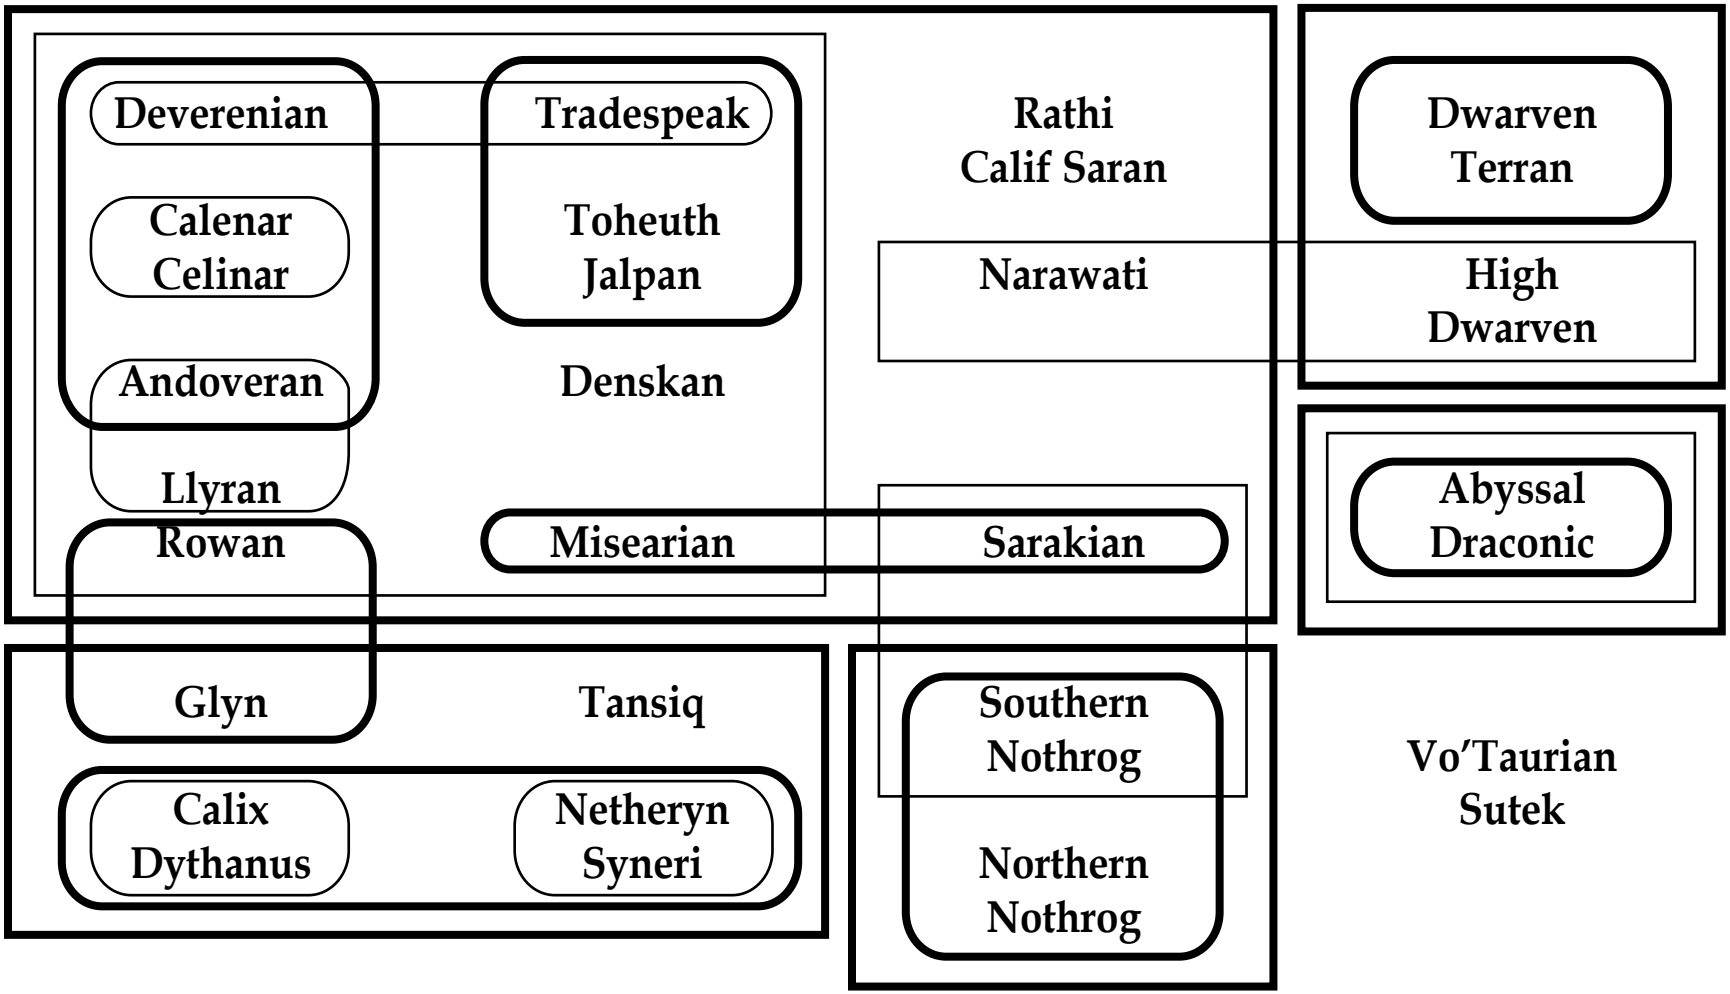
Warlords of the Accordlands Language Familiarity Chart



Key

Thin border with round corners: 4 point similarity, Speaker is treated as having half the points in related language
Thick border with round corners: 3 point similarity, Speaker gets a 1 point discount and a INT roll to understand
Thin border with square corners: 2 point similarity, Speaker gets a 1 point discount
Thick border with square corners: 1 point similarity, Speaker gets no special discounts, but the languages are related
Languages which do not share any similarities cost an additional point to purchase

Notes on Written Dialects and Literacy:

Dwarven, and Terran use the Runic Alphabet
Calix, Dythanus, Glyn, Netheryn, Rowan, Syneri, and Tansiq use the Elven Alphabet
Southern and Northern Nothrog use the Nothrog Alphabet
Narawati and High Dwarven use the Glyph Alphabet
Denskan has a unique alphabet
All other languages are written using the Deverenian standard Alphabet
Languages that share an alphabet share literacy. Ability to read one gives literacy in any you can speak.
